individual essays provide general theories of maritime strategy histories of seapower in action from the peloponnesian wars onward and contemporary views of the strategic uses of navies in both the west and east

organizations such as the sierra club and friends of the earth are familiar to anyone with an interest in environmental protection as activist groups they played by the same rules for years but in 1994 the rules changed with the republican takeover of congress environmental groups faced sweeping changes in federal policies that threatened the enforcement of environmental laws as these organizations intensified their efforts to meet these challenges they also altered their electoral strategies and political spending patterns this book traces those actions and shows what they mean for the future of environmentalism in the political arena while environmental advocacy groups have become bigger and better funded in recent years so have the corporate interests that compete with them for the attention of public and politicians the green agenda in american politics offers a new look at environmental advocacy that focuses on contemporary lobbying electioneering and agenda setting in this new context drawing on interviews with activists from a wide range of organizations robert duffy describes what environmental groups actually do when lobbying officials or

the public he examines activity at both national and state levels to emphasize their growing use of websites email and action alert networks to conduct more sophisticated grassroots campaigns and he shows how they are devoting more funds to unregulated forms of spending such as independent expenditure issue advocacy advertising and public education campaigns duffy also tracks emerging trends in interest group politics and provides an overview of activism through the early 1990s he then documents the emergence of more aggressive action after 1994 such as providing campaign services to candidates and mounting voter registration drives he also shows how state and local groups have begun to play more important roles in the wake of the rollback of federal environmental regulations brimming with new insights into interest group lobbies in general and contemporary environmental groups in particular duffy s book opens a new window on the influence of big money in the supposedly democratic electoral process

provides an overview of the polsss project and its results

success in negotiation is not a matter of chance but the result of careful planning and specialized skills some of these skills are inborn others need to be learnt in this book the psychologist and economist dr raymond saner draws on his long years of experience as a negotiation trainer and university lecturer to show that two thirds of negotiation practice is learnable yet very few people are specifically trained in this everyday task without sacrificing scientific accuracy dr saner offers a highly readable and fascinating guide to the subject in so doing he does not limit himself to the over simplified tips generally put out on successful bargaining in every imaginable situation rather he treats the different aspects of negotiation practice in a way that is useful to the both academics and practitioners such that the general laws and principles gradually become evident as and of themselves the aim of this approach is to reveal the essence of negotiation through the experience of both the author and the reader such an understanding of the processes involved in negotiation is of far greater practical value than a mere collection of recipes with no discussion of the underlying theory while the most comprehensive treatment of the theory without reference to its application in practice would be only half the story thus the text is supplemented by a series of illustrative examples and case studies from the business and political arenas plus some seventy figures and tables with all this the author has paid considerable attention to writing a text that is both entertaining to read and rigorous in content this work was originally published in german

a concise survey and analysis of presidential attempts over the last thirty years by democrats and republicans alike to dismantle the

regulatory state that first appeared under fdr argues that the war against regulation failed and that its excesses remind us of the value and proper role of regulation in american government

from the john holmes library collection

if you think your job is hopelessly difficult you may be right particularly if your job is public administration those who study or practice public management know full well the difficulties faced by administrators of complex bureaucratic systems what they don t know is why some jobs in the public sector are harder than others and how good managers cope with those jobs drawing on leadership theory and social psychology erwin hargrove and john glidewell provide the first systematic analysis of the factors that determine the inherent difficulty of public management jobs and of the coping strategies employed by successful managers to test their argument hargrove and glidewell focus on those jobs fraught with extreme difficulties impossible jobs what differentiates impossible from possible jobs are 1 the publicly perceived legitimacy of the commissioner s clientele 2 the intensity of the conflict among the agency s constituencies 3 the public s confidence in the authority of the commissioner s profession and 4 the strength of the agency s myth or long term idealistic goal hargrove and glidewell flesh out their analysis with six case studies that focus on the roles played by leaders of specific agencies each essay summarizes the institutional strengths and weaknesses specifies what makes the job impossible and then compares the skills and strategies that incumbents have employed in coping with such jobs readers will come away with a thorough understanding of the conflicting social psychological and political forces that act on commissioners in impossible jobs

the american congress in the mid 1990s remains the object of voter discontent public outcries against special interests and unresponsive incumbents have amplified an already pervasive scepticism towards beltway politics the book covers policy towards agricultural issues in particular

a paper reprint of the 1988 original it is a political history that describes and analyzes the management of organized knowledge wheatley takes flexner and the carnegie foundation of 1910 as the model portz political science northeastern u combines a synthesis of the literature on urban politics and political economy with a close analysis of plant closings in pittsburgh pennsylvania louisville
