excerpt from practical marine surveying
the need of a suitable text book on marine surveying for use at the naval academy has been felt for several years by the officers engaged in teaching that subject having been engaged exclusively in surveying work for six years previous to my assignment to duty at the naval academy i was requested by the head of department of astronomy navigation and surveying to prepare a text book on marine surveying to take the place of the one

then in use after considerable thought i agreed to undertake the task and the present volume is the result and it is earnestly hoped that it may be of value not only as a text book for the academy but to others who may be without experience in surveying work about the publisherforgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks comthis book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

this historic book may have numerous typos and missing text purchasers can usually download a free scanned copy of the original book without typos from the publisher not indexed not illustrated 1889 edition excerpt chapter viii topography the plane table 107 under the head of secondary triangulation or coast lining were given instructions for putting in the topography near the coast if it is desired to carry the topography farther inland other methods must be used though for all purposes of navigation only that portion of the country visible from a ship's deck is needed on the chart when each peak is occupied sketches or photographs of the surrounding country are taken and from these views from the computed heights of peaks and from views taken from the ship's deck the contourlines are put in by the draughtsman and the character of the country indicated by conventional signs care must be taken in drawing contour lines that they indicate properly the slopes directions of arroyos canons etc and that rivers are not made to flow uphill no contour line can have an end except by passing beyond the limits of the sheet otherwise they must be closed curves 108 in the topographical work of the coast survey the plane table is used exclusively and it may also be used in nautical surveys for running in shore line and with very accurate results though at the expense of time the plane table comprises a drawing board tripod head and tripod and alidade the board is made of well seasoned wood carefully constructed in panels to prevent warping and with its upper surface perfectly plane and has three brass sockets on its under side set at the vertices of an equilateral triangle and equally distant from the centre of the board by which it is secured by screws to the tripod head the tripod head is of brass and consists of two plates similar to the azimuth plates of a theodolite having clamp and tangent screw but no graduations

this work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it this work was reproduced from the original artifact and remains as true to the original work as possible therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work this work is in the public domain in the united states of america and possibly other nations within the united states you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work as a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public we appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant
